and Technology
Bachelors Visual
Communication
(Digital Media)

I am here to make simple art for Big Ideas.

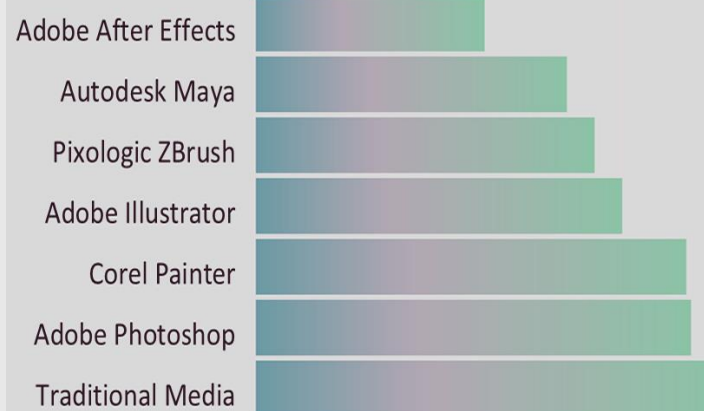

I am happiest when I'm completely absorbed in books, films and videogames. Childhood to Adulthood, media has shaped my personality more than anything else. Now that I am a media student myself, I cannot wait to create similar content for the coming generations of humans so that they can obsess over art just as much I do.

I believe that good Design must be like good Art: Gripping, Thought Provoking and Honest.
